

Purpose: *Evolutionary Ecology Research* publishes original research contributions focusing on the overlap between ecology and evolution. Papers may treat any taxon or be general. They may be empirical, theoretical or a combination of the two. EER prefers conceptual contributions that take intellectual risks or that test ideas.

Copyright © 2008 Evolutionary Ecology Ltd. All rights reserved. It is strictly forbidden to make copies of whole issues of this journal for any purpose without the express written permission of Evolutionary Ecology Ltd. Subscribing institutions/libraries may grant individuals the privilege of making a single copy of an article for non-commercial educational or non-commercial research purposes. Subscribing institutions/libraries may also use articles for non-commercial educational purposes by making any number of copies for course packs or course reserve collections. Subscribing institutions/libraries may also loan single copies of articles to non-commercial libraries for educational purposes. All copies of articles must preserve their copyright notice without modification. All articles are copyrighted by their authors. All authors endorse, permit and license Evolutionary Ecology Ltd. to grant its subscribing institutions/libraries the copying privileges specified above without additional consideration or payment to them or to Evolutionary Ecology Ltd. These endorsements, in writing, are on file in the office of Evolutionary Ecology Ltd. Consult authors for permission to use any portion of their work in derivative works, compilations or to distribute their work in any commercial manner.

Identification statement: *Evolutionary Ecology Research*, ISSN 1522–0613, is published eight times a year (January, February, March, May, July, October, November and December) by Evolutionary Ecology Ltd, PO Box 210088, Department of Ecology & Evolutionary Biology, University of Arizona, Tucson, AZ 85721-0088, USA.

Subscription information for 2008 (Volume 10, eight issues): Institutional/Library rates (all countries): US\$389/year for internet privileges only, US\$474/year for internet privileges and print edition.
